

Application No. 09/641,600
Amendment Under 37 CFR §1.312 dated October 14, 2005

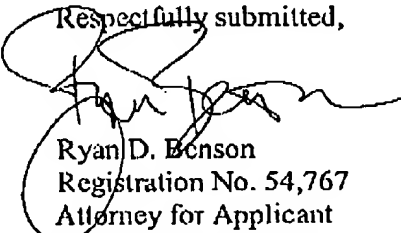

REMARKS

By this paper, claims 1, 4, 5, 12, 16, 43, 45, and 46 have been amended to correct typographical and minor grammatical errors in the claims. Claims 1, 4, and 5 have been amended to change "one or more operating parameter," to read, "one or more operating parameters." Claim 4 has also been amended to remove a duplication of the limitation, "a communication module...one control signal to the user." Claim 5 has also been amended to add "(e)" in front of limitation, "a communication module..." consistent with the listing of the other limitations in the claim. Similar typographical errors have been corrected in claims 12, 16, 43, 45 and 46. Applicants note for the record that this amendment is made only for purposes of formally correcting these typographical errors in the claims and is not being made in response to any prior art rejection, and therefore does not evince an intent on the part of the Applicants to surrender any subject matter.

In the event that the Examiner finds remaining impediment to a prompt allowance of this application that may be clarified through a telephone interview, the Examiner is requested to contact the undersigned attorney.

Dated this 14th day of October, 2005.

Respectfully submitted,

Ryan D. Benson
